

WORK SMART

Camera. A single moment captured forever.

NOT HARD

Painting. It took forever to capture a single moment.

Insights

Work Smart

Along with your customers' monthly bank statements you can send them an **intelligent snapshot of their personal and business finances.**

Making it easier for them to gain valuable insight into their own spending patterns. You get the picture?

Not Hard

We know your bank has spent a vast amount of money on PFM. We also know that the uptake is incredibly slow and delivers very little ROI.

We've developed a system, called Insights, that **automatically pushes all your customers' financial information** to them without having to lift a finger. How simple is that?

“ We are excited to have Luminous showcase BankFiling to more than 850 leading financial executives, VC's, analysts and entrepreneurs at FinovateFall. ”

- Mr. Eric Mattson, The Finovate Group CEO
